## Fans vote in the "Triumph Triple Trophy"

The "Triumph Triple Trophy" kicked off the new season with a new format last weekend in Qatar and now involves the fans. They vote for the best performance of the riders on each race weekend and thus decide the outcome of the competition. Triumph and promoter Dorna will reward the most outstanding performance of the season in the Triple Trophy with a custom-made Street Triple RS as a prize.

As in the past four years, this year's TTT will once again run parallel to the Moto 2 World Championship, in which Triumph's 765 cubic three-cylinder engine is used as the standard engine. After each race weekend, representatives of the motorcycle manufacturer and the organizer make a pre-selection, which, in addition to the race result, also recognizes, for example, sporting endurance or other outstanding performances by the riders. The fans then decide on the final order of the three nominated riders via the Moto GP Instagram channel. Alluding to the engine displacement, the rider with the most votes after each Grand Prix receives seven points, the second most six points and the third five points. (aum)
